related devices - Assisted Systems Group with operating system build changes including installing, testing and troubleshooting - Provided problem resolution for logged problems - Monitored the labs providing assistance to help desk as necessary - Inventoried equipment and supplies Student Assistant 10/2014 - 8/2016 - Assisted students in computer labs - Maintained printers in computer labs	Lab Manager	8/2016 - Present
including installing, testing and troubleshooting - Provided problem resolution for logged problems - Monitored the labs providing assistance to help desk as necessary - Inventoried equipment and supplies Student Assistant 10/2014 - 8/2016 - Assisted students in computer labs - Maintained printers in computer labs	•	
 Monitored the labs providing assistance to help desk as necessary Inventoried equipment and supplies Student Assistant Assisted students in computer labs Maintained printers in computer labs 		
 Inventoried equipment and supplies Student Assistant 10/2014 - 8/2016 Assisted students in computer labs Maintained printers in computer labs 	 Provided problem resolution for logged problems 	
Student Assistant 10/2014 - 8/2016 - Assisted students in computer labs - Maintained printers in computer labs	 Monitored the labs providing assistance to help desk as necessary 	
 Assisted students in computer labs Maintained printers in computer labs 	 Inventoried equipment and supplies 	
 Maintained printers in computer labs 	Student Assistant	10/2014 - 8/2016
	 Assisted students in computer labs 	
Technical Skills	 Maintained printers in computer labs 	
	Technical Skills	
Languages	Languages	

C/C++, Java, Python, JavaScript, PHP, HTML, CSS/SCSS

Databases

SQL (MySQL and MSSQL Server), MongoDB, dynamoDB

Version Control

Git, SVN, Plastic SCM

Sever Management

Virtual Machines (VirtualBox, Hyper-V, VMware, KVM)

Linux and Windows server experience

Linux shell scripting and Windows batch scripting experience

Amazon Web Services

S3, Route53, dynamoDB, IAM, SNS, CloudWatch, EC2, CloudFront
